2016 -2017

05/09/2016: RALLY ON ORGAN DONATION

Introduction:

Organ donation means that an organ is transferred from the body of one person to that of another person. This is done by a process called transplantation. The quality of life of the person who receives the organ is improved to various degrees. The donor is the person providing the organ to the recipient, who receives the organ through a surgery called transplantation. Organs that can be transplanted are the heart, kidneys, liver, lungs, pancreas, intestine, skin, and thymus.

Tissues include bones, tendons, corneas, heart valves, and veins. Worldwide, the kidneys are the most commonly transplanted organs, followed closely by the liver and then the heart. The cornea, bones, and muscles are the most commonly transplanted tissues. It is important for people to be aware that donating an organ or tissue changes the life of a fellow human being. The field of medicine called Regenerative medicine has made scientific advances to grow or create organs or tissues from cells. Still there is great demand for organs.

Activity:

Our NSS volunteers from MKSSSS BTINE have taken part into organ donation rally which was arranged by B .J .Medical College which aims to maximize the number of voluntary registration for cadaveric organ donation. Our rally started from Shaniwar Wada and ends at B .J Medical college ground. This was government drive for social awareness. This was mega rally arranged on 5th September 2016 between 8 am to 11am starting from different points in the city and ending at B .J .Medical college ground. The route of the rally was from various areas of Pune city to the Sassoon hospital B .J .Medical college ground. Various messages and slogan and role plays were performed in this rally. Many institutes nursing colleges as well as medical colleges were taken part in to this. Water bottle and biscuits' were provided to the volunteers comes from different colleges. Many tee-shirts, caps, banner were provided which displaying importance of organ donation to the NSS volunteers. Through this campaign government aims to maximize the number of voluntary registration for cadaveric organ donation. All the willing donors can register at the web site www.dmer.org and take active participation. This is government drive for social awareness.

this. Water bottles and biscuits were provided to the volunteers from different colleges. 03/10/2016: SWACCHATA ABHIYAN

Introduction

Swachh Bharat Abhiyan is a campaign launched by the Prime Minister, Narendra Modi as a nationwide cleanliness campaign. It is implemented to fulfill the vision and mission of clean India a day. It was launched especially on the birth anniversary of the Mahatma Gandhi as he was dreamed and very keen to make this country a clean country. He had tried for clean India in his time by motivating people through his campaigns and slogans however could not be true because of the partial involvement of the people of India.

But after years, Swachh Bharat Mission has again started by the government of India to make the dream of clean India come true in next five years till 150th birthday anniversary of the Mahatma Gandhi. It was started in 2014 on 2nd of October on the 145th birth anniversary of the mahatma Gandhi. It is big challenge for all the citizens of India. It is only possible if each and every person living in India would understand this campaign their own responsibility and try to meet hands together to make it a successful mission. It is initiated and promoted by the famous Indian personalities to spread this mission as an awareness programme all through the India.

Activity

'Swachata Abhiyan' conducted by our NSS volunteers in the Kamshet Aashramshala. During these programmes we have collected all waste products from the classes and ground. During these programmes we have collected all waste products from the classes and ground. For this activity Aashramshala students also help us. During this, NSS (50) volunteers have given health education on environmental sanitation and personal hygiene.

6/10/2016- RALLY AND STREET PLAY ON ROAD SAFETY

Introduction

Road traffic safety refers to the methods and measures used to prevent road users from being killed or seriously injured. Typical road users include pedestrians, cyclists, motorists, vehicle passengers, and passengers of on-road public transport (mainly buses and trams).

Best-practices in modern road safety strategies focus on preventing serious injury and death from vehicle crashes despite human fallibility. (Whereas, previous road safety paradigms assumed compliance with traffic regulations.) Safe road design is now about implementing a Safe System approach.

Road traffic crashes are one of the world's largest public health and injury prevention problems. The problem is all the more acute because the victims are overwhelmingly healthy before their crashes. According to the World Health Organization (WHO), more than 1 million people are killed on the world's roads each year.

Activity

The NSS volunteers of MKSSS Smt. Bakul Tambat institute of nursing education conducted a rally on Road safety in the Kamshet area. Rally starts from Maharshi Karve Aashramshala at 9:00am and ends at Kamshet railway station at 11:00am. NSS Volunteers have made various types of A.V.aids. Rally starts from the Maharshi Karve Aashramshala and ends at Kamshet railway station. Through these rallies and street play NSS volunteers (50) have given information about road safety. They have given information about traffic rules, signals, zebra crossing, etc.

17/01/2017: FIRST AID TEAM FOR SPORTS COMPETITION

Introduction:

First aid is the immediate care given to a person who has been injured or suddenly taken ill. It includes self-help and home care if medical assistance is not available or is delayed. It also includes well-selected words of encouragement, evidence of willingness to help, and promotion of confidence by demonstration of competence.

The person giving first aid, the first-aider, deals with the whole situation, the injured person, and the injury or illness. He knows what not to do as well as what to do; he avoids errors that are frequently made by untrained persons through well-meant but misguided efforts. He knows, too, that his first aid knowledge and skill can mean the difference between life and death, between temporary and permanent disability, and between rapid recovery and long hospitalization.

Activity:

The NSS volunteers of MKSSS Smt.BakulTambat institute of nursing education participated in first aid treatment for sports competition at Sanas ground on the 17th January 2017 at Sanas ground. For these competition students participated for if any player gets injured for that purpose students were helping. So that was an nice experience for the NSS volunteers.

23/01/2017: MOUTH HYGIENE ABHIYAN

Introduction:

Mouth hygiene is the practice of keeping one's mouth clean and free of disease, by regular brushing and cleaning in between the teeth. It is important oral hygiene is completed on a regular basis, as it can prevent dental disease from occurring. The most common types of dental disease is dental decay (also known as dental caries), gingivitis and periodontitis. Regular brushing consists of brushing twice a day after breakfast and before going to bed. Cleaning in between your teeth is called interdental cleaning and it is equally important as tooth brushing.^[2] This is because a toothbrush cannot reach between your teeth, therefore only cleaning 50% of the surfaces. There are many tools to clean between the teeth; these include floss, flossettes, interdental brushes, wood sticks and gum picks. It is generally up to each individual to choose which tool they would prefer to use.

Activity:

Mouth /oral hygiene is an essential aspect of human hygiene. Oral hygiene prevents halitosis as well as many other diseases that affect the heart and brain. As a part of oral hygiene 2017 we organized a mouth hygiene awareness programme on 23rd and 24th January 2017 in karvenagar and wadarvasti urban community area. Fifty of our students participated in this programme . We have given health education about the importance of mouth hygiene through street play, rally and school health programme. The participants and community members found this programme highly useful and sincerely appreciated it. (59 Volunteers)

As a part of this NSS camp NSS volunteers has planned 'Mahila Melava' under guidance of Kamshet village Sarpanch, Mrs. Shinde. The programme was guided by NSS officer Mrs.Rupali Dhume and Ms. Tejaswini Kanthale. The programme started at 11:00 am with NSS clap. NSS officer felicitated Mrs.Shinde. Agenda of Mahila Melava was Street play on Environmental Sanitation, Traditional Dance performance, Health Education on women's health, personal hygiene, prevention of cancer cervix and breast, street play on Female

Foeticide , Women Empowerment. NSS volunteers have used various types of A.V. aids like, Flash cards, charts, posters and demonstrations. We also conducted an exhibition of various A.V.aids used for the street plays like Environmental Sanitation, Female Foeticide, Alcoholism, Road Safety At the end of the Melava one of the representatives of womens said a few words as a vote of thanks.

01/03/2017:Rally and Street play on Alcoholism

The NSS volunteers of MKSSS Smt.Bakul Tambat institute of nursing education conducted a rally onAlcoholism in the Kamshet area. Rally starts from Maharshi Karve Aashramshala at 9:00am and ends at Kamshet railway station at 11:00am. Street play and rally was conducted on Alcoholism. Volunteers have made various type of A.V.Aids

02/03/2017 :Rally on Road Safety

The NSS volunteers of MKSSS Smt.Bakul Tambat institute of nursing education conducted a rally onRoad safety in the Kamshet area. Rally starts from Maharshi Karve Aashramshala at 9:00am and ends at Kamshet railway station at 11:00am. Rally was conducted on road safety. And also they gave the message about the importance of traffic rules to the people .Volunteers have made various type of A.V.Aids.

03/03/2017: School health programme:

The NSS volunteers of MKSSS Smt.Bakul Tambat institute of nursing education conducted a school health programme at Kamshet Aashramshala. NSS Volunteers had done the role play on personal hygiene and through that role play they have given the message of importance of personal hygiene to school children. And also they have prepared the audio visual aids. Report of School health programme submitted to Principal of Aashramshala

04/03/2017: Field visit to : Manashakti center

In NSS camp at Kamshet 23 NSS volunteers and 3 NSS officers conducted the visit to Manashakti center .In Manashakti center they have given the useful information to the Students.i.e. Personality development, Stress management, Garbh Samarthya, Tarunya bargarh Buddhivardhan ,Yauvanchyakrantidisha and various tests like aptitude test

,attitude test, Steadiness test Chromo test etc .and these tests and classes is for all the groups between 1yearto geriatric age. and these all the activities are based on scientific principles.NSS volunteers also visited the Swami Vigyananand thoughts gallery which was very useful for the future life of students.

04.03.2017-: Lecture on Stress Management:

For NSS volunteers Lecture has been planned by Mrs.Rupali on stress management at Manashakti center .Lecture was taken by Mrs.Patankar and she had given the information about how to manage stress during exam time and in our day to day life. They have prepared the pyramid model for improving the concentration level and it is based on scientific principles.

04/03/2017-: Visit to NGO (SaiSevaDham):

MKSSS, 23 NSS volunteers and 3 NSS officers visited SaiSevaDham at KanhePhata. SaiSevaDham NGO is working for HIV/ AIDS persons in the community. Since, HIV is not curable and so many families are disorganized, poor socio economic status, etc.these problems arise. So to help out these people and their families, SaiSevaDham Trust comes to an origin.

05/03/2017- Tree plantation at Kamshet Aashramshala

The NSS volunteers of MKSSS Smt.Bakul Tambat institute of nursing education conducted a tree plantation programme at Kamshet Aashramshala.

05/03/2017- 'Valedictory Function:

As our 23 NSS volunteers and 2 NSS officers have stay in the Kamshet, Maharshi Karve Aashramshala for NSS camp, we have planned a Valedictory function in the presence of Aashramshala Principal Mrs. Devare madam. We have given a watch to the Aashramshala office.

With this Our NSS camp has finished. We all came back to our institute in the evening 5:00

27/02/2017- RALLY AND STREET PLAY ON ENVIRONMENTAL SANITATION

Introduction

The World Health Organization (WHO) defines 'Environmental Sanitation' as "the control of all those factors in man's physical environment which exercise or may exercise a deleterious effect on his physical development, health and survival."

Environmental sanitation/hygiene includes all the activities aimed at improving or maintaining the standard of basic environmental conditions affecting the wellbeing of people. These conditions include:

Clean and safe water supply

Clean and safe ambient air

Efficient and safe animal, human, and industrial waste disposal

Protection of food from biological and chemical contaminants

Adequate housing in clean and safe surround

Activity

The NSS volunteers of MKSSS Smt.Bakul Tambat institute of nursing education conducted a rally on environmental sanitation in the Kamshet area. Rally starts from Maharshi Karve Aashramshala at 9:00am and ends at Kamshet railway station at 11:00am. NSS volunteers have cleaned the area, unit have given the health talk on environmental sanitation. Street play was conducted on environmental sanitation. Volunteers have made various types of A.V.Aids.

28/02/2017- RALLY AND STREET PLAY ON FEMALE FOETICIDE

Introduction

Female feticide is the abortion of a female fetus outside of legal channels. It occurs in India for assumed cultural reasons that span centuries.

The frequency of female feticide in India is assumed to be an estimation derived from its high birth sex ratio that is the ratio of boys to girls at birth. The natural ratio is assumed to be between 103 and 107, and any number above it is considered as suggestive of female feticide. According to the decennial Indian census, the sex ratio in the 0 to 6 age group in India has risen from 102.4 males per 100 females in 1961, to 104.2 in 1980, to 107.5 in 2001, to 108.9 in 2011.

Activity

In the NSS camp at Kamshet 25 NSS volunteers and 3 NSS officers conduct rally and street play on 'Female Feticides'. This street play and rally was really effective. NSS volunteers have made various types of audio visual aids for the street play and rally. They give a good message to society. Rally starts from the Maharshi Karve Aashramshala and ends at Kamshet railway station. Through these rallies and street play NSS volunteers have given information about the importance of females in the world. NSS volunteers have prepared various types of slogans and A V. aids.

28/02/2017: MahilaMelava:

Introduction

As a part of this NSS camp NSS volunteers has planned "MahilaMelava" under guidance of Kamshet village Sarpanch, Advocate Mrs. RohiniMutha. The programme was guided by NSS officer Mrs. RupaliDhume and Ms. KomalAwasare. The programme was started at 11:00 am with NSS clap. NSS officers' felicitated Mrs. RohiniMutha. Agenda of MahilaMelava was Street play on Environmental Sanitation, Traditional Dance performance, Health Education on women's health, personal hygiene, prevention of cancer cervix and breast, street play on Female Feticide, Women empowerment. NSS volunteers have used various types of A.V. aids like, Flash cards, charts, posters and demonstrations. We also conducted exhibition of various A.V. Aids used for the street plays like Environmental Sanitation, Female Foeticide, Alcoholism, Swine Flu, Road Safety. At the end of the Melava one of the representative of womens said a few words as a vote of thanks.

01/03/2017: RALLY AND STREET PLAY ON ALCOHOLISM

Introduction

Alcohol is banned in some parts of India such as Manipur and Gujarat, but it is legally consumed in the majority of states. There are believed to be 62.5 million people in India who at least occasionally drink alcohol. Unlike many western countries the consumption of alcohol in India is witnessing a dramatic rise – for instance, between 1970 and 1995

there was a 106.7% increase in the per capita (this means per individual in the population) consumption. International brewers and distillers of alcoholic beverages are keen to become popular in India, because it potentially offers the third largest market for their product globally. India has also become one of the largest producers of alcohol – it produces 65% of alcoholic beverages in South-East Asia. Most urban areas have witnessed an explosion in the number of bars and nightclubs that have opened in recent years.

Activity

In the NSS camp at Kamshet 25 NSS volunteers and 3 NSS officers conduct a rally and street play on 'Alcoholism'. Rally starts at 8:00 am from Maharshi Karve Aashramshala, Kamshet and end to Kamshet bazaar. This street play and rally was really effective. NSS volunteers have made various types of Audio visual aids for Street play and rally.

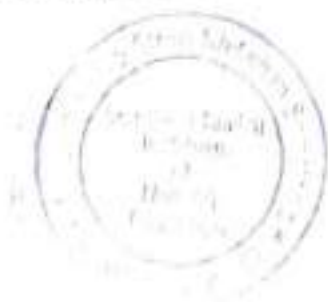

Through these rally and street play they pass the message about how alcohol is injurious to health, family and society also. They give good message to the society. At the end of street play few people asked queries about alcoholism. NSS volunteers and NSS officers solve their queries. They also given them address of Deaddiction centers situated in Pune District. We all came back at our camp place at 12:00 pm.

02/03/2016- RALLY AND STREET PLAY ON ROAD SAFETY

Introduction

Road traffic safety refers to the methods and measures used to prevent road users from being killed or seriously injured. Typical road users include pedestrians, cyclists, motorists, vehicle passengers, and passengers of on-road public transport (mainly buses and trams).

Best-practices in modern road safety strategies focus on preventing serious injury and death from vehicle crashes despite human fallibility (Whereas, previous road safety paradigms assumed compliance with traffic regulations.) Safe road design is now about implementing a Safe System approach.

Road traffic crashes are one of the world's largest public health and injury prevention problems. The problem is all the more acute because the victims are overwhelmingly healthy before their crashes. According to the World Health Organization (WHO), more than 1 million people are killed on the world's roads each year.

Activity

The NSS volunteers of MKSSS Smt. Bakul Tambat institute of nursing education conducted a rally on Road safety in the Kamshet area. Rally starts from Maharshi Karve Aashramshala at 9:00am and ends at Kamshet railway station at 11:0am. NSS Volunteers have made various types of A.V. aids. Rally starts from the Maharshi Karve Aashramshala and ends at Kamshet railway station. Through these rallies and street play NSS volunteers have given information about road safety. They have given information about traffic rules, signals, zebra crossing, etc

03/03/2017- SCHOOL HEALTH PROGRAMME

Introduction

School Health program is a program for school health service under National Rural Health Mission, which has been necessitated and launched in fulfilling the vision of NRHM to provide effective health care to population throughout the country. It also focuses on effective integration of health concerns through decentralized management at district with determinant of health like sanitation, hygiene, nutrition, safe drinking water, gender and social concern.

The School health programme is the only public sector programme specifically focused on school age children. Its main focus is to address the health needs of children, both physical and mental, and in addition, it provides for nutrition interventions, yoga facilities and counseling. It responds to an increased need, increases the efficacy of other investments in child development, ensures good current and future health, better educational outcomes and improves social equity and all the services are provided for in a cost effective manner.

Activity

The NSS volunteers of MKSSS Smt.Bakul Tambat institute of nursing education conducted a school health programme at Kamshet Aashramshala. During SHP, NSS volunteers have done physical assessment. NSS volunteers have carried the articles from BTINE, Karvenagar.

SHP starts with the prayer of god. Then we formed the group of volunteers 1st was for physical assessment, 2nd was for entertainment and third was for discipline. We have covered about 100 students. After finishing the SHP, we gave prizes to the winners of the competitions. During this programme, we have found the following health problems in children.

Dental caries

Scabies

Worm infestation

Poor personal hygiene

Symptoms of vitamin and iron deficiency

Report of School health programme submitted to the Principal of Aashramshala.

04/03/2017: FIELD VISIT TO: MANASHAKTI CENTER

In NSS camp at Kamshet 23 NSS volunteers and 3 NSS officers conducted the visit to Manashakti center .In Manashakti center they have given the useful information to the Students.i.e. Personality development, Stress management, Garbh Samarthya, Tarunya bargarh Buddhivardhan ,Yauvanchyakraantidisha and various tests like aptitude test ,attitude test, Steadiness test Chromo test etc .and these tests and classes is for all the groups between 1yearto geriatric age. and these all the activities are based on scientific principles.NSS volunteers also visited to the Swami Vigyananand thoughts gallery and which was very useful for the future life of students.

04/03/2017: LECTURE ON STRESS MANAGEMENT

For NSS volunteers Lecture has been planned by Mrs.Rupali on stress management at Manashakti center .Lecture was taken by Mrs.Patankar and she had given the information

11-14/05/2017: BHARTIY VIGYAN SAMMELAN (FIRST AID TEAM)

Introduction:

Bhartiy Vigyan Samelan (BVS) is a flagship program of Vijnana Bharti initiated as a vehicle to reach the masses in the pursuit of popularizing science and technology and to facilitate interactions within common people and scientific fraternity. BVS is a conglomeration of scientist, artisans, technocrats, traditional innovators, students and common people planned once in two years. It has become an excellent platform to bring together whoever contributes to science and has become a new definition and identity in the field of scientific seminars and symposiums. To date, four Bharti Vigyan Samelan have taken place starting from Bhopal (2007), Indore (2009), Jalandhar (2012) and Panaji (2015). The 5th Bharti Vigyan Samelan and an Exhibition is being jointly organized by Vijnana Bharti and Government of Maharashtra at the knowledge city of Pune in association with Deccan Education Society's Fergusson College from 11 to 14 May, 2017. Focal Theme The focal theme of the Samelan is "Confluence of traditional and modern sciences: A new integral vision for development" It proposes to provide an excellent integrating opportunity to showcase people's science in our Bharti traditional practices, grass root innovations and also the contributions made by researchers and scientists in modern science. BVS aims to provide a channel of communication between traditional and modern sciences with the prospects of communicating in any Bharti regional languages and not restricting to only English as the preferred language for scientific expression.

Activity:

The Ferguson College Pune organizes 5th Bhartiya Vigyan Samelan at Ferguson College Pune from 11th may to 14th may, 2017. In that the 50 NSS volunteers and the 10 teachers from MKSSS BTINE as a NSS coordinator work with the Bhartiya Vigyan Samelan team from 1st day of planning and also participated in this Vigyan Samelan. In which our NSS volunteers work with medical team as a first aid team. They treat various medical conditions on first aid basis. They got good experience in this Vigyan Samelan.

LECTURE ON SICKLE CELL DISEASES

Introduction:

Sickle cell disease or sickle cell anemia, inherited disorder of the blood in which the oxygen-carrying hemoglobin pigments in erythrocytes (red blood cells) is abnormal.

This hemoglobin-S crystallizes in small capillaries, where the concentration of oxygen in the blood is low (but sufficient for normal hemoglobin), causing the red blood cells to assume distorted, sickle like shapes. Linus Pauling discovered the chemical abnormality of the hemoglobin molecule that causes the erythrocyte sickling in 1949.

The sickled red blood cells tend to clog small blood vessels, depriving the tissues they serve of blood and oxygen. Painful crises result, with symptoms depending on the site affected (e.g., joint and abdominal pain or kidney damage). Strokes or seizures can occur if the brain is affected. Lung infections resulting from the patient's disinclination to take painful deep breaths are a frequent complication. In addition, the sickled erythrocytes are fragile and subject to rupture and destruction, leading to hemolytic anemia (reduction of oxygen-carrying hemoglobin caused by premature destruction of red blood cells) and such symptoms as fatigue, jaundice, and headaches.

Activity:

The NSS volunteers of MKSSS Smt. Bakul Tambat institute of nursing education were attended lecture of anemia which is taken by Dr Kulkarni (Jankalyan raktpedhi) at BNCA hall. he explained all the types of anemia with prevention and treatment of it. Students found it very informative. (50 NSS Volunteers)

BLOOD DONATION CAMP**

07.12.2017-: Blood donation camp

Introduction

A blood donation occurs when a person voluntarily has blood drawn and used for transfusions and/or made into pharmaceutical medications by a process called fractionation (separation of whole-blood components). Donation may be of whole blood, or of specific components directly (the latter called aphaeresis). Blood banks often participate in the collection process as well as the procedures that follow it.

Today in the developed world, most blood donors are unpaid volunteers who donate blood for a community supply. In some countries, established supplies are limited and donors usually give blood when family or friends need a transfusion (directed donation). Donors can also have blood drawn for their own future use (autologous donation). Donating is relatively safe, but some donors have bruising where the needle is inserted or may feel faint.

Activity:

MKSSS BTINE and Jankalyan Raktapedhi, Pune cordially arranged blood donation camp in Smt. Bakul Tambat INE, Pune. Students of samstha and all staff members participated in this camp. All NSS volunteers actively participated in the arrangement of camp.

RALLY ON "RASHTRIYA SWADESHI SURAKSHA ABHIYAN"

28th August 2017: Rally on 'Rashtriya Swadeshi Suraksha Abhiyan'

Introduction

Rashtriya Swadeshi Suraksha Abhiyan Committee, which works for the Rashtriya Swayamsevak Sangh, will hold six rallies simultaneously from different routes of the city on Saturday.

The rallies will be held to encourage common people to boycott Chinese products. The committee has been organizing various events to spread awareness against the use of Chinese products.

It has also trained 136 speakers who conduct seminars at 60 colonies, 16 communities, 7 colleges, 28 schools, 19 coaching centres, 8 traders organizations, 11 women organizations amongst others and encouraged around 12, 000 people to boycott Chinese products. The committee also held symbolic funerals of Chinese goods throughout the city. It distributed pamphlets and stickers to around 50, 000 families and extended their message.

Activity:

Our 50 NSS volunteers from MKSSSS BTINE have taken part in a rally and poster painting competition which was arranged by our college on 28th August 2017. The rally aims to give motivation for using Indian goods in our daily activity instead foreign products. Students were actively participating in the rally. Our NSS volunteers have made various A.V.Aids for the rally.

09/10/2017: Rally and Street play on Beti Bachao, Beti Padhao

Introduction

The Census, 2011 has shown significant declining trend in Child Sex Ratio (CSR), with 918 girls per 1000 boys in the age group of 0-6 years. The unabated decline in CSR since 1961 (from 976 in 1961 to 927 in 2001 and 918 in 2011) is a matter of grave concern as it reflects the low status of women in our society and indicates her disempowerment over a life-cycle continuum. Declining CSR is also indicative of pre-birth discrimination manifested through gender biased sex selection and post birth discrimination against girls (in terms of health care, nutrition and educational opportunities).

In this scenario, Beti Bachao, Beti Padhao (BBBP) was launched by the Hon'ble Prime Minister, Shri Narendra Modi, as one of the flagship programmes of the Government, to address the declining Child Sex Ratio and related issues of empowerment of women on a life-cycle continuum. It is a tri-ministerial, convergent effort of Ministries of Women and Child Development, Health & Family Welfare and Human Resource Development with a focus on awareness and advocacy campaign for changing mindsets, multi-sectoral action in selected 100 districts (1st Phase) +61 districts (IInd Phase) (low on CSR), enabling girls' education and effective enforcement of Pre-Conception & Pre Natal Diagnostic Techniques (PC&PNDT) Act. The Hon'ble Prime Minister officially announced the expansion of BBBP Scheme covering all 640 districts as per Census 2011 on March 8, 2018, at Jhunjhunu, Rajasthan through multi-sectoral intervention and District media & advocacy in 405 Districts. The remaining 235 Districts are covered under media advocacy and outreach. The Scheme is being administered through District Appropriate Authority and funds are directly transferred to the concerned District.

Objectives of the Scheme

- Prevent gender biased sex selective elimination
- Ensure survival & protection of the girl child
- Ensuring education and participation of the girl child.

Activity:

The NSS volunteers of MKSSS Smt. Bakul Tambat institute of nursing education conducted a rally on Beti Bachao, Beti Padhao in the Kamshet area. Rally starts from Maharshi Karve Ashramshala at 9:00am and ends to Kamshet railway station at 11:00am. Through the rally they have given the message about the importance of education of girl child and avoidance of female foeticide to the people. Street play was conducted on Beti Bachao, Beti Padhao. 08/10/2017:Rally and Street play on Dengue

Introduction

Dengue fever is a mosquito-borne tropical disease caused by the dengue virus. Symptoms typically begin three to fourteen days after infection. This may include a high fever, headache, vomiting, muscle and joint pains, and a characteristic skin rash. Recovery generally takes less than two to seven days. In a small proportion of cases, the disease develops into the life-threatening dengue hemorrhagic fever, resulting in bleeding, low levels of blood platelets and blood plasma leakage, or into dengue shock syndrome, where dangerously low blood pressure occurs.

Dengue is spread by several species of mosquito of the Aedes type, principally. The virus has five different types; infection with one type usually gives lifelong immunity to that type, but only short-term immunity to the others. Subsequent infection with a different type increases the risk of severe complications.

Activity

In NSS camp at Kamshet NSS volunteers and 3 NSS officers conduct rally and street play on 'Dengue'. This street play and rally was really effective. NSS volunteers (50) Have made various types of audio visual aids for the Street play and rally. They have given a good message to society.

RALLY ON 'ORGAN DONATION'

24th August 2017: Rally on 'Organ donation'

Introduction:

Organ donation means that an organ is transferred from the body of one person to that of another person. This is done by a process called transplantation. The quality of life of the person who receives the organ is improved to various degrees. The donor is the person providing the organ to the recipient, who receives the organ through a surgery called transplantation. Organs that can be transplanted are the heart, kidneys, liver, lungs, pancreas, intestine, skin, and thymus.

Tissues include bones, tendons, corneas, heart valves, and veins. Worldwide, the kidneys are the most commonly transplanted organs, followed closely by the liver and then the heart. The cornea, bones, and muscles are the most commonly transplanted tissues. It is important for people to be aware that donating an organ or tissue changes the life of a fellow human being. The field of medicine called Regenerative medicine has made scientific advances to grow or create organs or tissues from cells. Still there is great demand for organs.

Activity:

Our 50 NSS volunteers from MKSSSS BTINE have taken part in an organ donation rally and poster painting competition which was arranged by our college on 24th August 2017. Our NSS volunteers have made various A.V.Aids on organ donation for the rally.

1st August 2017 to 15th August 2017: Swachhta Pakhwada

Introduction

Swachh Bharat Abhiyan is a campaign launched by Prime Minister, Narendra Modi as a nationwide cleanliness campaign. It is implemented to fulfil the vision and mission of clean India a day. It was launched especially on the birth anniversary of Mahatma Gandhi as he dreamed and was very keen to make this country a clean country. He had tried to clean India in his time by motivating people through his campaigns and slogans, however, this could not be true because of the partial involvement of the people of India.

But after years, Swachh Bharat Mission has again started by the government of India to make the dream of clean India come true in the next five years till the 150th birthday anniversary of the Mahatma Gandhi. It was started in 2014 on the 2nd of October on the 145th birth anniversary of the mahatma Gandhi. It is a big challenge for all the citizens of India. It is only possible if each and every person living in India would understand this campaign as their own responsibility and try to meet hands together to make it a successful mission. It is initiated and promoted by the famous Indian personalities to spread this mission as an awareness programme all through India.

Activity:

The NSS volunteers of MKSSS Smt.Bakul Tambat institute of nursing education were conducted Rally on Swachta Abhiyan in our campus and the Karvenagar area. NSS volunteers have cleaned our campus area. All 50 NSS volunteers participated to do this work. Unit has given a health talk on environmental sanitation. Street play was conducted on environmental sanitation. The NSS volunteers of MKSSS BTINE along with took oath on saving the environment & Measures to prevent global warming. Had discussion based on the theme for the year 2017

“Raise your voice not the sea level”. NSS volunteers participated in campus cleaning. Street play was conducted on Environmental sanitation. Volunteers have made various types of A.V.Aids. Through various types of slogans we have conducted rallies in the Karvenagar area.

01/10/2018: Rally and Street play on Beti Bachao, Beti Padhao

Introduction

The Census, 2011 has shown significant declining trend in Child Sex Ratio (CSR), with 918 girls per 1000 boys in the age group of 0-6 years. The unabated decline in CSR since 1961 (from 976 in 1961 to 927 in 2001 and 918 in 2011) is a matter of grave concern as it reflects the low status of women in our society and indicates her disempowerment over a life-cycle continuum. Declining CSR is also indicative of pre-birth discrimination manifested through gender biased sex selection and post birth discrimination against girls (in terms of health care, nutrition and educational opportunities).

In this scenario, Beti Bachao, Beti Padhao (BBBP) was launched by the Hon'ble Prime Minister, Shri Narendra Modi, as one of the flagship programmes of the Government, to address the declining Child Sex Ratio and related issues of empowerment of women on a life-cycle continuum. It is a tri-ministerial, convergent effort of Ministries of Women and Child Development, Health & Family Welfare and Human Resource Development with a focus on awareness and advocacy campaign for changing mindsets, multi-sectoral action in selected 100 districts (1st Phase) +61 districts (IInd Phase) (low on CSR), enabling girls' education and effective enforcement of Pre-Conception & Pre Natal Diagnostic Techniques (PC&PNDT) Act.

The Hon'ble Prime Minister officially announced the expansion of BBBP Scheme covering all 640 districts as per Census 2011 on March 8, 2018, at Jhunjhunu, Rajasthan through multi-sectoral intervention and District media & advocacy in 405 Districts. The remaining 235 Districts are covered under media advocacy and outreach. The Scheme is

being administered through the District Appropriate Authority and funds are directly transferred to the concerned District.

Objectives of the Scheme

- Prevent gender biased sex selective elimination
- Ensure survival & protection of the girl child
- Ensuring education and participation of the girl child.

Activity:

The NSS volunteers of MKSSS Smt.Bakul Tambat institute of nursing education conducted a rally on Beti Bachao, Beti Padhao in the Kamshet area. Rally starts from Maharshi Karve Aashramshala at 9:00am and ends to Kamshet railway station at 11:00am. Through the rally they have given the message about the importance of education of girl child and avoidance of female foeticide to the people. Street play was conducted on Beti Bachao, Beti Padhao. Volunteers have made various types of A.V.Aids.

02.10.2018 - STREET PLAY AND RALLY ON 'SWINE FLU'

Introduction

Swine influenza, also called pig influenza, swine flu, hog flu and pig flu, is an infection caused by any one of several types of swine influenza viruses. Swine influenza virus (SIV) or swine-origin influenza virus (S-OIV) is any strain of the influenza family of viruses that is endemic in pigs. As of 2009, the known SIV strains include influenza C and the subtypes of A known as H1N1, H1N2, H2N1, H3N1, H3N2, and H2N3.

2015 Indian swine flu outbreak refers to an outbreak of the 2009 pandemic H1N1 virus in India, which is still ongoing as of March 2015. The states of Gujarat and Rajasthan are the worst affected.

India had reported 937 cases and 218 deaths from swine flu in the year 2014. By mid-February 2015, the reported cases and deaths in 2015 had surpassed the previous numbers.^[5] The total number of laboratory confirmed cases crossed 33000 mark with death of more than 2000 people.

Activity

In NSS camp at Kamshet 25 NSS volunteers and 2 NSS officers Mrs. Samina Mulani and Ms. Avantika Anturkar conduct rally and street play on 'Swine Flu'. This street play and rally was really effective. NSS volunteers have made various types of audio visual aids for the street play and rally. In this awareness programme, NSS volunteers give health education on Swine Flu causes, signs and symptoms, diagnosis and lab investigations, treatment and care, preventive measures.

RALLY ON 'ORGAN DONATION'

2nd August 2018: Rally on 'Organ donation'

Introduction:

Organ donation means that an organ is transferred from the body of one person to that of another person. This is done by a process called transplantation. The quality of life of the person who receives the organ is improved to various degrees. The donor is the person providing the organ to the recipient, who receives the organ through a surgery called transplantation. Organs that can be transplanted are the heart, kidneys, liver, lungs, pancreas, intestine, skin, and thymus.

Tissues include bones, tendons, corneas, heart valves, and veins. Worldwide, the kidneys are the most commonly transplanted organs, followed closely by the liver and then the heart. The cornea, bones, and muscles are the most commonly transplanted tissues. It is important for people to be aware that donating an organ or tissue changes the life of a fellow human being. The field of medicine called Regenerative medicine has made scientific advances to grow or create organs or tissues from cells. Still there is great demand for organs.

Activity:

Our 50 NSS volunteers from MKSSSS BTINE have taken part in an organ donation rally and poster painting competition which was arranged by our college on 2nd August 2018. Our NSS volunteers have made various A.V.Aids on organ donation for the rally.

05/10/2018: Swachhta Abhiyan:

Swachh Bharat Abhiyan is a campaign launched by the Prime Minister, Narendra Modi as a nationwide cleanliness campaign. It is implemented to fulfill the vision and mission of clean India a day. It was launched especially on the birth anniversary of Mahatma Gandhi as he dreamed and was very keen to make this country a clean country. He had tried to clean India in his time by motivating people through his campaigns and slogans, however this could not be true because of the partial involvement of the people of India.

But after years, Swachh Bharat Mission has again started by the government of India to make the dream of clean India come true in next five years till 150th birthday anniversary of the Mahatma Gandhi. It was started in 2014 on 2nd of October on the 145th birth anniversary of the mahatma Gandhi. It is a big challenge for all the citizens of India. It is only possible if each and every person living in India would understand this campaign as their own responsibility and try to meet hands together to make it a successful mission. It is initiated and promoted by the famous Indian personalities to spread this mission as an awareness programme all through India.

Activity:

The NSS volunteers of MKSSS Smt.Bakul Tambat institute of nursing education conducted Rally on Swachta Abhiyan at K. NSS volunteers have cleaned our campus area. All 50 NSS volunteers participated to do this work. Unit has given a health talk on environmental sanitation. Street play was conducted on environmental sanitation.

The NSS volunteers of MKSSS BTINE along with took oath on saving the environment & Measures to prevent global warming. Had discussion based on the theme for the year 2018“Raise your voice not the sea level”. NSS volunteers participated in campus cleaning. Street play was conducted on Environmental sanitation. Volunteers have made

various types of A.V.Aids.Through various types of slogans we have conducted rallies in the Karvenagar area.

06/10/2018- TREE PLANTATION CAMPAIGN

Introduction

The government has decided to increase Maharashtra's green cover by planting 2 crore saplings on July 1 across the state. In Maharashtra, the green cover is only 20% against the required 33.5%. Out of a total of 307 lakh hectares, only 61.35 lakh hectares are under green cover. "The depleting green cover is one of the major causes of climate change and it is affecting the monsoon. We will plant 2 crore saplings within a day. While 1.50 crore saplings will be planted by the forest department, various government institutions will plant the rest," said a senior government official.

Activity

In Maharshi Karve Stree Shikshan Samstha, Smt. Bakul Tambat Institute of Nursing Education has celebrated 'Van Mahotsav' on 6th October 2018. During this Mahotsav our 25 NSS volunteers along with NSS officer Mrs. Samina Mulani and Ms. Avantika Anturkar planned a Tree Plantation in the MKSSS Kamshet campus. For this, we have conducted rally on 'Save Tree, Save Earth'. In the Kamshet area. After the rally we prepared pits for the tree plantation. We have displayed banners and posters in campus of Importance of tree plantation

ACTIVITY: RALLY AND STREET PLAY ON SWINE FLU

Date: 14/10/2019

Time: 9:00am-1:00pm

Venue: From Maharshi Karve Aashramshala to Kamshet railway station

Introduction

H1N1 flu is also known as swine flu. It's called swine flu because in the past, the people who caught it had direct contact with pigs. That changed several years ago, when a new virus emerged that spread among people who hadn't been near pigs.

In 2009, H1N1 was spreading fast around the world, so the World Health Organization called it a pandemic. Since then, people have continued to get sick from swine flu, but not as many.

While swine flu isn't as scary as it seemed a few years ago, it's still important to protect yourself from getting it. Like seasonal flu, it can cause more serious health problems for some people. The best bet is to get a flu vaccine, or flu shot, every year. Swine flu is one of the viruses included in the vaccine.

Activity

In NSS camp at Kamshet 50 NSS volunteers and 5 NSS officers conduct rally and street play on Swine flu. This street play and rally was really effective. NSS volunteers have made various types of audio visual aids for the street play and rally. They give good message to the society. Rally starts from the Maharshi Karve Aashramshala and end to Kamshet railway station. Through these rally and street play NSS volunteers have given information about prevention of "SWINE FLU" in the world. NSS volunteers have prepared various types of slogans and A V. aids.

ACTIVITY: RALLY AND STREET PLAY ON DENGUE FEVER

Date: 15/10/2019

Time: 9:00am-1:00pm

Venue: From Maharshi Karve Aashramshala to Kamshet railway station

Introduction

Dengue fever is a mosquito-borne tropical disease caused by the dengue virus. Symptoms typically begin three to fourteen days after infection. This may include a high fever, headache, vomiting, muscle and joint pains, and a characteristic skin rash. Recovery generally takes less than two to seven days.

In a small proportion of cases, the disease develops into the life-threatening dengue hemorrhagic fever, resulting in bleeding, low levels of blood platelets and blood plasma leakage, or into dengue shock syndrome, where dangerously low blood pressure occurs.

Dengue is spread by several species of mosquito of the Aedes type, principally.

The virus has five different types; infection with one type usually gives lifelong immunity to that type, but only short-term immunity to the others. Subsequent infection with a different type increases the risk of severe complications.

Activity

In NSS camp at Kamshet 50 NSS volunteers and 5 NSS officers conduct rally and street play on 'Dengue Fever'. This street play and rally was really effective. NSS volunteers have made various types of audio visual aids for the street play and rally. They give good message to the society. Rally starts from the Maharshi Karve Aashramshala and end to Kamshet railway station. Through these rally and street play NSS volunteers have given information about causes of dengue fever, signs and symptoms, treatment of dengue fever

ACTIVITY: RALLY AND STREET PLAY ON DIABETES MELLITUS

Date: 16/10/2019

Time: 9:00am-1:00pm

Venue: From Maharshi Karve Aashramshala to Kamshet railway station

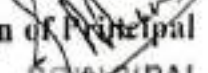

Introduction

Diabetes mellitus is a group of metabolic diseases characterized by hyperglycemia resulting from defects in insulin secretion, insulin action, or both. The chronic hyperglycemia of diabetes is associated with long-term damage, dysfunction, and failure of various organs, especially the eyes, kidneys, nerves, heart, and blood vessels.

Several pathogenic processes are involved in the development of diabetes. These range from autoimmune destruction of the β -cells of the pancreas with consequent insulin deficiency to abnormalities that result in resistance to insulin action. Deficient insulin action results from inadequate insulin secretion and/or diminished tissue responses to insulin at one or more points in the complex pathways of hormone action. Impairment of insulin secretion and defects in insulin action frequently coexist in the same patient, and it is often unclear which abnormality, if either alone, is the primary cause of the hyperglycemia.

Activity

In NSS camp at Kamshet 50 NSS volunteers and 5 NSS officers conduct rally and street play on 'Diabetes Mellitus'. This street play and rally was really effective. NSS volunteers have made various types of audio visual aids for the street play and rally. They give good message to the society. Rally starts from the Maharshi Karve Aashramshala and end to Kamshet railway station. Through these rally and street play NSS volunteers have given information about causes, signs and symptoms, treatment of Diabetes mellitus.

ACTIVITY: RALLY AND STREET PLAY ON FEMALE FOETICIDE

Date: 17/10/2019

Time: 9:00am-1:00pm

Venue: From Maharshi Karve Aashramshala to Kamshet railway station

Introduction

Female feticide is the abortion of a female fetus outside of legal channels. It occurs in India for assumed cultural reasons that span centuries.

The frequency of female feticide in India is assumed to be an estimation derived from its high birth sex ratio that is the ratio of boys to girls at birth. The natural ratio is assumed to be between 103 and 107, and any number above it is considered as suggestive of female feticide. According to the decennial Indian census, the sex ratio in the 0 to 6 age group in India has risen from 102.4 males per 100 females in 1961, to 104.2 in 1980, to 107.5 in 2001, to 108.9 in 2011.

Activity

In NSS camp at Kamshet 50 NSS volunteers and 5 NSS officers conduct rally and street play on 'Female Feticides'. This street play and rally was really effective. NSS volunteers have made various types of audio visual aids for the street play and rally. They give good message to the society. Rally starts from the Maharshi Karve Aashramshala and end to Kamshet railway station. Through these rally and street play NSS volunteers have given information about importance of females in the world. NSS volunteers have prepared various types of slogans and A V. aids.

ACTIVITY: RALLY AND STREET PLAY ON ROAD SAFETY

Date: 17/10/2019

Time: 2:00pm-4:00pm

Venue: From Maharshi Karve Aashramshala to Kamshet railway station

Introduction

Road traffic safety refers to the methods and measures used to prevent road users from being killed or seriously injured. Typical road users include pedestrians, cyclists, motorists, vehicle passengers, and passengers of on-road public transport (mainly buses and trams).

Best-practices in modern road safety strategies focus on preventing serious injury and death from vehicle crashes despite human fallibility.(Whereas, previous road safety paradigms assumed compliance with traffic regulations.) Safe road design is now about implementing a Safe System approach.

Road traffic crashes are one of the world's largest public health and injury prevention problems. The problem is all the more acute because the victims are overwhelmingly healthy before their crashes. According to the World Health Organization (WHO), more than 1 million people are killed on the world's roads each year.

Activity

The NSS volunteers of MKSSS Smt.Bakul Tambat institute of nursing education were conducted rally on Road safety in the Kamshet area. Rally starts from Maharshi Karve Aashramshala at 9:00am and ends to Kamshet railway station at 11:00am.NSS Volunteers have made various type of A.V.aids. Rally starts from the Maharshi Karve Aashramshala and end to Kamshet railway station. Through these rally and street play NSS volunteers have given information about road safety. They have given information about traffic rules, signals, zebra crossing, etc.

ACTIVITY: RALLY AND STREET PLAY ON PLASTIC MUKTI ABHIYAN

Date: 18/10/2019

Time: 9:00am-1:00pm

Venue: From Maharshi Karve Aashramshala to Kamshet railway station

Introduction

Plastic pollution is the accumulation of plastic objects and particles (e.g. plastic bottles, bags and micro beads) in the Earth's environment that adversely affects wildlife, wildlife habitat, and humans. As of 2018, about 380 million tons of plastic is produced worldwide each year.

Activity

In NSS camp at Kamshet 50 NSS volunteers and 5 NSS officers conduct rally and street play on 'Plastic Mukti Abhiyan'. This street play and rally was really effective. NSS volunteers have made various types of audio visual aids for the street play and rally. They give good message to the society. Rally starts from the Maharshi Karve Aashramshala and end to Kamshet railway station. Through these rally and street play NSS volunteers have given information about importance for why to avoid plastic in the world. NSS volunteers have prepared various types of slogans and A V. aids.

ACTIVITY: RALLY AND STREET PLAY ON "BETI BACHAO BETI PADHAO"

Date: 18/10/2019

Time: 2:00pm-4:00pm

Venue: From Maharshi Karve Aashramshala to Kamshet railway station

Introduction

Beti Bachao, Beti Padhao is a campaign of the Government of India that aims to generate awareness and improve the efficiency of welfare services intended for girls in India. The scheme was launched with an initial funding of 100 crore. It mainly targets the clusters in Uttar Pradesh, Haryana, Uttarakhand, Punjab, Bihar and Delhi.

According to census data in India, the child sex ratio (0-6 years) in India was 931 girls per 1,000 boys in 2001, which dropped to 918 girls for every 1,000 boys in 2011. The Sex Ratio 2011 shows a downward trend from the census 2001 data. Speaking on the occasion of International Day of the Girl Child in 2014, the Prime Minister, Narendra Modi had called for the eradication of female feticide and invited suggestions from the citizens of India via the My Gov.in portal.

Activity

In NSS camp at Kamshet 25 NSS volunteers and 3 NSS officers conduct rally and street play on "BETI BACHAO BETI PADHAO". This street play and rally was really effective. NSS volunteers have made various types of audio visual aids for the street play and rally. They give good message to the society. Rally starts from the Maharshi Karve Aashramshala and end to Kamshet railway station. 11/09/2019: RALLY ON ORGAN DONATION RALLY

Introduction:

Organ donation means that an organ is transferred from the body of one person to that of another person. This is done by a process called transplantation. The quality of life of the person who receives the organ is improved to various degrees. The donor is the person providing the organ to the recipient, who receives the organ through a surgery called transplantation. Organs that can be transplanted are the heart, kidneys, liver, lungs, pancreas, intestine, skin, and thymus.

Tissues include bones, tendons, corneas, heart valves, and veins. Worldwide, the kidneys are the most commonly transplanted organs, followed closely by the liver and then the heart. The cornea, bones, and muscles are the most commonly transplanted tissues. It is important for people to be aware that donating an organ or tissue changes the life of a fellow human being. The field of medicine called Regenerative medicine has made scientific advances to grow or create organs or tissues from cells. Still there is great demand for organs.

Activity:

REGULAR ACTIVITIES

13/01/2020- RALLY AND STREET PLAY ON ROAD SAFETY

Introduction

Road traffic safety refers to the methods and measures used to prevent road users from being killed or seriously injured. Typical road users include pedestrians, cyclists, motorists, vehicle passengers, and passengers of on-road public transport (mainly buses and trams).

Best-practices in modern road safety strategies focus on preventing serious injury and death from vehicle crashes despite human fallibility.(Whereas, previous road safety paradigms assumed compliance with traffic regulations.) Safe road design is now about implementing a Safe System approach.

Road traffic crashes are one of the world's largest public health and injury prevention problems. The problem is all the more acute because the victims are overwhelmingly healthy before their crashes. According to the World Health Organization (WHO), more than 1 million people are killed on the world's roads each year.

Activity

The volunteers of MKSSS Smt.Bakul Tambat institute of nursing education conducted a rally on Road safety in the Karvenagar area. Rally starts from Maharshi Karve Stree Shikshan Samstha at 9:00am and ends at 11:00am.NSS Volunteers have made various types of A.V.aids. Through these rallies and street play NSS volunteers have given information about road safety. They have given information about traffic rules, signals, zebra crossing, etc.

01/03/2021: ORIENTATION & SWACCHATA ABHIYAN

Introduction

Swachh Bharat Abhiyan is a campaign launched by the Prime Minister, Narendra Modi as a nationwide cleanliness campaign. It is implemented to fulfill the vision and mission of clean India a day. It was launched especially on the birth anniversary of Mahatma Gandhi as he dreamed and was very keen to make this country a clean country. He had tried to clean India in his time by motivating people through his campaigns and slogans however this could not be true because of the partial involvement of the people of India. But after years, Swachh Bharat Mission has again started by the government of India to make the dream of clean India come true in next five years till 150th birthday anniversary of the Mahatma Gandhi. It was started in 2014 on 2nd of October on the 145th birth anniversary of the mahatma Gandhi. It is a big challenge for all the citizens of India. It is only possible if each and every person living in India would understand this campaign as their own responsibility and try to meet hands together to make it a successful mission. It is initiated and promoted by the famous Indian personalities to spread this mission as an awareness programme all through India.

Activity

'Swachata Abhiyan' conducted by our NSS volunteers in the Karve Nagar area. During these programmes we have collected all waste products from the classes and ground. During this, NSS volunteers have given health education on environmental sanitation and personal hygiene.

05/03/2021- LECTURE ON PREVENTION OF CORONAVIRUS DISEASE

Introduction

Coronavirus disease (COVID-19) is an infectious disease caused by a newly discovered coronavirus.

Most people infected with the COVID-19 virus will experience mild to moderate respiratory illness and recover without requiring special treatment. Older people, and those with underlying medical problems like cardiovascular disease, diabetes, chronic respiratory disease, and cancer are more likely to develop serious illness.

The best way to prevent and slow down transmission is to be well informed about the COVID-19 virus, the disease it causes and how it spreads. Protect yourself and others from infection by washing your hands or using an alcohol based rub frequently and not touching your face.

The COVID-19 virus spreads primarily through droplets of saliva or discharge from the nose when an infected person coughs or sneezes, so it's important that you also practice respiratory etiquette (for example, by coughing into a flexed elbow).

Activity:

The NSS volunteers of MKSSS Smt.Bakul Tambat institute of nursing education attended a lecture conducted at MKSSS BTINE on coronavirus disease.

02/03/2021- LECTURE ON PLASTIC MUKTI ABHIYAN

Introduction

Plastic pollution is the accumulation of plastic objects and particles (e.g. plastic bottles, bags and micro beads) in the Earth's environment that adversely affects wildlife, wildlife habitat, and humans. As of 2018, about 380 million tons of plastic is produced worldwide each year.

Activity

In the NSS camp, NSS volunteers and NSS officers' conduct programmes on 'PLASTIC MUKTI ABHIYAN'. They give a good message to the society. NSS volunteers were provided online information about the importance of avoiding plastic in the world. NSS volunteers have prepared various types of slogans and A V. aids.

02/03/2021- Rally and Street play on "Beti Bachao, Beti Padhao"

Introduction

The Census, 2011 has shown a significant declining trend in Child Sex Ratio (CSR), with 918 girls per 1000 boys in the age group of 0-6 years. The unabated decline in CSR since 1961 (from 976 in 1961 to 927 in 2001 and 918 in 2011) is a matter of grave concern as it reflects the low status of women in our society and indicates her disempowerment over a life-cycle continuum. Declining CSR is also indicative of pre-birth discrimination manifested through gender-biased sex selection and post-birth discrimination against girls (in terms of health care, nutrition and educational opportunities).

In this scenario, Beti Bachao, Beti Padhao (BBBP) was launched by the Hon'ble Prime Minister, Shri Narendra Modi, as one of the flagship programmes of the Government, to address the declining Child Sex Ratio and related issues of empowerment of women on a life-cycle continuum. It is a tri-ministerial, convergent effort of Ministries of Women and Child Development, Health & Family Welfare and Human Resource Development with a focus on awareness and advocacy campaign for changing mindsets, multi-sectoral action in selected 100 districts (1st Phase) +61 districts (IInd Phase) (low on CSR), enabling girls' education and effective enforcement of Pre-Conception & Pre Natal Diagnostic Techniques (PC&PNDT) Act. The Hon'ble Prime Minister officially announced the expansion of BBBP Scheme covering all 640 districts as per Census 2011 on March 8, 2018, at Jhunjhunu, Rajasthan through multi-sectoral intervention and District media & advocacy in 405 Districts. The remaining 235 Districts are covered under media advocacy and outreach. The Scheme is being administered through the District Appropriate Authority and funds are directly transferred to the concerned District.

Objectives of the Scheme

- Prevent gender-biased sex selective elimination
- Ensure survival & protection of the girl child
- Ensuring education and participation of the girl child.

Activity:

The NSS volunteers of MKSSS Smt. Bakul Tambat institute of nursing education conducted a rally on Beti Bachao, Beti Padhao in the Kamshet area. The rally starts from Maharshi Karve Aashramshala at 9:00 am and ends to Kamshet railway station at 11:00 am. Through the rally, they have given the message about the importance of education of girl child and avoidance of female foeticide to the people. A street play was conducted on Beti Bachao, Beti Padhao. Volunteers have made various types of A.V.Aids.
