2016-2017

Date: 08/08/2016

Time: 9:00 am to 5:00 pm

Venue: Anatomy laboratory

Name of faculty: 1) Mrs. Bijayalakshmi Devi
2) Ms. Ashwini Lande

Name of Procedure: Orientation of anatomy and physiology models, specimens, bones and charts.

Activity: On 8th August 2016, orientation was given to all first year Basic B.Sc. Nursing students. All anatomy laboratory models, specimens, bones and charts were explained to them and also shown the various projects available in anatomy laboratory. Explained them anatomy laboratory is used for learning various organs in the anatomy and physiology. All first year faculties were present during orientation.

Time: 9:00am to 5:00pm

Venue: Anatomy laboratory

Name of faculty: 1) Ms. Shital More

2) Ms. Nishigandha Shelar

Name of Procedure: Practice on models and charts

Activity: From 04/01/2017 to 07/01/2017, students of first year Basic B.Sc nursing used anatomy laboratory to learn anatomy and physiology of various organs, specimens and charts for the practice. Faculty has taken group wise practice of the students. There are various educational methods used in anatomy teaching. While three dimensional visualization technologies are gaining ground due to their ever-increasing realism, reports investigating physical models as a traditional method are still the subject of considerable interest. They asked about the parts and functions of the organs while practicing the students. Faculty supervised and guided the students to take initiative and explain the models and charts using appropriate steps. Student's starts to explain models and charts individually.

Date: 04/10/2018 to 09/10/2018

Time: 9:00am to 5:00pm

Venue: Anatomy laboratory

Name of faculty: 1) Mrs. Samina Mulani
2) Ms. Ashwini Lande

Name of Procedure: Brief Explanation of various charts and model

Activity: From 04/10/2018 to 09/10/2018, faculty of first year Basic B.Sc nursing had arranged the anatomy laboratory for the students to explain charts and model of various systems. Faculty has started with theory part of the selected system i.e. introduction, definition, parts of the system, function etc. and continue with demonstration of required models. After the demonstration done by the faculty, each student is given chance to see the model and charts guided by the faculty. Students have shown their interest to learn and utilized the models and charts to improve their knowledge and understanding.

Date: 16/01/2019 and 21/01/2019

Time: 9:00am to 5:00pm

Venue: Anatomy laboratory

Name of faculty: 1) Mrs. Samina Mulani
2) Ms. Shital More

Name of Procedure: Practice on models and charts

Activity: From 16/01/2019 and 21/01/2019, students of first year Basic B.Sc. nursing used anatomy laboratory to learn anatomy and physiology of various organs, specimens and charts for the practice. Faculty has taken group wise practice of the students. There are various educational methods used in anatomy teaching. While three dimensional visualization technologies are gaining ground due to their ever-increasing realism, reports investigating physical models as a traditional method are still the subject of considerable interest.

They asked about the parts and functions of the organs while practicing the students. Faculty supervised and guided the students to take initiative and explain the models and charts using appropriate steps. Student's starts to explain models and charts individually.

2016-2017

Date: 20/08/2016

Time: 09:00 am to 12:00 pm

Venue: Nutrition laboratory

Name of faculty: 1) Mrs. Shital Chirke
2) Mrs. Ashwini Bhosale

Activity: Orientation of Nutrition laboratory

On 20th August 2016, orientation of nutrition laboratory was planned for first year Basic B.Sc. nursing students. The orientation had started from 09:00 a.m. in which all the articles and SOP of the lab were explained. Students were also explained about the importance of therapeutic diet according to patient's disease condition (e.g. renal diet, balanced diet, diabetic diet, hypertensive diet, weaning diet etc.) and socioeconomic status. Describe students about the relationship between nutrition and health and also the classification, functions, sources and recommended daily allowance of all nutrient (CHO, Protein, fats, Vitamins, Minerals, etc.). All doubts of students were cleared by faculty and general instructions were given. Also, procedure of issuing and replacing of articles explained to students for practical purpose.

Date: 05/09/2016 to 10/09/16

Time: 09:00 am to 05:00 pm

Venue: Nutrition Laboratory

Name of faculty: 1) Mrs. Shital Chirke

2) Mrs. Ashwini Bhosale

Activity: Nutrition Week Programme.

Activity: From 05/09/2016 to 10/09/16 students of first year Basic B.Sc. nursing had arranged the nutrition week programme. In that first year teachers demonstrated therapeutic diet recipes according to patient disease condition, for an example-renal diet, diabetic diet, hypertensive diet to the students. Students prepared report, pamphlet according to their diet and present in front of teachers. Students are divided in 3 groups that are 20 students in one day and distributed recipes. Students prepared recipes under supervision of teachers. After the preparation the prepared recipes were displayed in the laboratory. All the faculties of the college were invited to taste and evaluate the recipes and questions were asked by the faculty related to therapeutic content of the recipes. At last feedback were given to the students.
