**Subject: Appreciation for Conducting NSS Camp at Paud gaon (19th to 25th February 2024)**

Respected madam,

I am writing to express my sincere gratitude and appreciation for the successful conduction of the NSS camp at Paudgaon, held from 19th February to 25th February 2024.

The camp was a truly enriching experience for all the participants, as it provided an excellent opportunity to engage in meaningful social service while also learning important life skills. The variety of activities conducted during the camp—such as the street play, rallies, tree plantation program, gender equality discussions, and awareness sessions on the importance of education—were not only educational but also impactful in promoting a sense of responsibility towards society.

The guidance provided by the NSS team and your continuous encouragement made it possible for us to actively participate in these activities, learn valuable lessons, and contribute to the community.

I would like to extend appreciation to you and the entire team for your efforts in making this camp an immense success.

Sincerely,  
[Grampanchayat]

**Faculty development Program on Polio Campaign.**

**Introduction.**

Poliomyelitis (polio) is a highly infectious viral disease that largely affects children under 5 years of age. The virus is transmitted by person-to-person spread mainly through the fecal-oral route or, less frequently, by a common vehicle (e.g. contaminated water or food) and multiplies in the intestine, from where it can invade the nervous system and cause paralysis.

In 1988, the World Health Assembly adopted a resolution for the worldwide eradication of polio, marking the launch of the Global Polio Eradication Initiative, spearheaded by national governments, WHO, Rotary International, the US Centers for Disease Control and Prevention (CDC), UNICEF, and later joined by the Bill & Melinda Gates Foundation and Gavi, the Vaccine Alliance.

Wild poliovirus cases have decreased by over 99% since 1988, from an estimated 350 000 cases in more than 125 endemic countries to 6 reported cases in 2021. Of the 3 strains of wild poliovirus (type 1, type 2 and type 3), wild poliovirus type 2 was eradicated in 1999 and wild poliovirus type 3 was eradicated in 2020. As at 2022, endemic wild poliovirus type 1 remains in two countries: Pakistan and Afghanistan.

On Sunday 03/03/2024 GNM and Final year B.Sc. students along with 3 teachers went for Polio Campaign in different areas like Warje, Karve Nagar at different locations where each teacher was given various areas in which they were training students and supervising them. The 3 teachers who were involved in the polio campaign were:

1. Ms. Salwa Duste from 4<sup>th</sup> year BSc Nursing department.

2.1<sup>st</sup> year GNM teachers Ms. Anuja Jadhav and Ms. Divya Jogale.

Teachers were involved in monitoring tally sheets given, Noting the number of children taking the vaccine. Educating parents about importance of polio vaccination, supervising students and involving themselves in vaccinating the children.

Overall as staff we also got a good experience and we are grateful of Pune Municipal Corporation gave us staff an opportunity to be involved in this vaccination drive.
