

Title of Practice 1

Implementation of Mastery learning teaching method for improving students' performance in theory and practical skills.

Objectives

- To achieve lifelong learning for students.
- To enhance the cognitive and psychomotor abilities of nursing students.
- To achieve 80% marks in theory.
- To achieve 100% marks in practical.
- To improve knowledge, confidence, and procedural skills among students.

The Context: The mastery learning strategy is a potent teaching method in terms of enhancing the cognitive and psychomotor abilities of nursing students.

Implementation

Simulation has a significant impact on healthcare education across disciplines and in both undergraduate and postgraduate studies. Hence, the institute decided to implement the simulation-based mastery learning approach as a teaching method for first-year B.Sc. (N) students. Topics that have core nursing skills, such as health assessment and Medication administration are taught to them using high-fidelity simulation-based mastery learning. However, before proceeding to another subject and skill, investigators thought it was necessary to check the learners' experiences as this is the new method of teaching and learning.

Simulation-based mastery learning featuring deliberate practice gives residents and fellows the opportunity for procedural skills development and feedback. Mastery learning requires that learners meet or exceed a minimum passing score (MPS) on a simulated examination before performing the procedure in actual clinical care.

The Practice

The topic (Health Assessment and Medication administration) was performed through a mastery learning approach. Teaching topics were taught by faculty and after each class one test multiple-choice questions type of test was conducted for all students. Students were expected to get 80% marks in the study to achieve learning by mastery learning approach. For those students who got less than 80% marks, different methods of teaching were conducted like peer tutoring, discussion, revision, etc. Then again, the same test was given to them, and they got 80% marks. To achieve practical skills in the selected procedures **Objective Structured Clinical Examination (OSCE) was conducted**. For conducting OSCE procedure checklists and procedure stations were prepared, and students were performing the procedure as per the checklist. OSCE evaluation was done by the different faculty as per their stations. For achieving procedural skills students were expected to get 100% marks. After completion of the mastery learning teaching process, the interview was conducted, the verbatim of all students was recorded and transcription was prepared. In-depth interview data was collected from the first B.Sc. (N) students on lived experiences of simulation-based mastery learning, which lasted for 15-20 minutes. The discussion was taken with all the students for feedback of the mastery learning approach. Open-ended questions were used and maintained in the interview guide. The first B.Sc. (N) students have shared the experiences genuinely and with openness.

Evidence of Success

The results can be measured:

1. Students gave positive points in the form of feedback like:

“During mastery learning teaching - learning was very planned to get study material after each session.”

“Students’ doubts & problems were solved timely”.

“Mastery learning improved communication among student while performing the procedure.

“Mastery learning was very interesting as teachers used modern technologies & high-fidelity simulators.”

“Mastery learning provided adequate time to study & practice until we get correct steps of the procedures so it improved knowledge and procedural skills”.

2. The Result of the theory test and OSCE was discussed with the students and students gave good and positive verbal feedback.
3. Geotagged photos were taken while conducting lectures, tests, and OSCE.

Problems Encountered and Resources Required: Though the practice is being implemented successfully while preparing content faculty members realized that there should be equal participation and enthusiasm of all team members and students. As mastery learning is lifelong learning student has to get 80% marks on theory test and 100% marks in OSCE so, preparation of teaching-learning content and taking repeated practice theory classes and procedures took a lot of time.

**Maharshi Karve Stree Shikshan Samstha's
Smt. Bakul Tambat Institute of Nursing Education,
Karvenagar, Pune-52**

Teachers of first year B.Sc. (N) has organized mastery learning module on Vital Signs for (semester-I) academic year batch 2022-2023 (49 students) under the guidance of Dr. Shubhada Ponshe, HOD first year B.Sc. (N) department.

Dr. Shubhada Ponshe HOD, first year B.Sc. (N) department has planned and organized the module; the syllabus of topic was distributed amongst Dr. Shubhada Ponshe, Ms. Ashwini Lande, and Mrs. Deepali Shinde and Ms. Aaditi Shirke.

Day-1

Dr. Shubhada Ponshe has conducted lecture on Guidelines for taking vital signs Definition, Physiology and Regulation, Characteristics, Factors affecting BP Assessment of BP – sites, equipment and technique, Common Errors in BP Assessment Alterations in Blood Pressure and documenting Vital Signs followed by assessment of Blood pressure..

Day-2

Ms. Aaditi Shirke has conducted theory lectures on Definition, Physiology, Regulation, and Factors affecting body temperature Assessment of body temperature–sites, equipment and technique Temperature alterations –Hyperthermia, Heat Cramps, Heat Exhaustion, Heatstroke, Hypothermia Fever/Pyrexia–Definition, Causes, Stages, Types Nursing Management Hot and Cold applications followed by assessment of temperature.

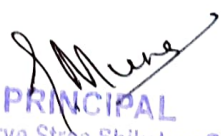

Day-3

Mrs. Ashwini Lande conducted theory lectures on Definition, Physiology and Regulation, Characteristics, Factors affecting pulse Assessment of pulse–sites, equipment and technique Alterations in pulse followed by assessment of pulse.

Day-4

Mrs. Deepali Shinde conducted theory lectures Respiration: Definition, Physiology and Regulation, Mechanics of breathing, Characteristics, Factors affecting respiration Assessment of respirations–technique Arterial Oxygen saturation followed by assessment of respiration and oxygen saturation.

Title of Practice 2

Implementation of the First Aid training programme to other institutes in Samstha

The Context

First aid training is the training in which a person reacts to injuries and performs simple emergency medical care procedures for people in crisis as they wait for medical professionals to arrive. It is beyond doubt that knowledge of first aid promotes a safer and healthier environment. Having staff and students who are well-equipped with first aid skills contributes to enhancing the safety of the schools and work areas. First aid training is an essential investment in creating a safer and more prepared environment. By empowering the workforce and students with the skills to respond effectively to emergencies, we are protecting lives and fostering a positive culture.

Objectives: The participants are:

- 1) Able to understand how and when to administer first aid
- 2) Preserve life
- 3) Prevent the escalation of illness or injury.
- 4) Promote recovery.
- 5) Provide pain relief
- 6) Protect the unconscious from dangers

The Content of practice:

A group of six faculty train the other institutes like schools, health club, van drivers, students and their faculty in first aid for one day comprising of eight hours. The first four hours they are given theory lectures on various topics such as haemorrhage: (Cuts/injury, bleeding through the Nose/ Ear/Teeth), foreign body: Eye /Nose /Ear /Throat, airway obstruction, bites and stings (dog, bee), fainting, hypoglycaemia, convulsions, head injury, fractures, Sprain, drowning, acidity, poisoning, burns, painful menstruation and cardio pulmonary resuscitation. The next four hours they are given hands on training. A pre-test and post-test is given. Successful candidates are awarded with certificates.

In the institute, we have high fidelity mannequins for simulation, and CPR mannequins and a demonstration room for the training. The faculty also conduct these sessions with materials and mannequins in the other institutes.

The practice

The faculty trained teach the subject matter in the classroom and demonstrate in the simulation lab in smaller groups. Using PPTs, videos, and hands-on experience is helpful so the participants can easily understand the topic or first aid technique. Our faculty have prepared scenarios & and through that, they demonstrate the procedure/techniques step by step to handle emergencies.

Evidence of success

The trainers follow the steps & and do them correctly with practice.

1. The institute provides all the infrastructural and teaching resources for conducting first aid training programs and the first aid kits, and various workshops are organized for training the faculty on first aid.
2. The Institute received appreciation letters from the other institutes where the training was conducted.
3. Our students and faculty are invited to give first aid care to warkaris on yatra, rallies, DAMINI, URJA, SNA /TNAI, marathon and sports competitions.

SMT. BAKUL TAMBAT INSTITUTE OF NURSING EDUCATION**

KARVENAGAR, PUNE – 52

FIRST AID MANAGEMENT MODULE

Year (2022-2023)

Date: - 6th May, 15th May, 16th May, 31st May, 1st June & 3rd June 2023

Venue: - MKSSS'S BTINE Multipurpose hall and demonstration Lab.

OBJECTIVES:-

At the end of the workshop students will be able to understand:

1. What is first aid management?
2. The workshop schedule.
3. About pre test and post test.
4. The short introductory skits.
5. About skill demonstrations on first aid management.

INTRODUCTION:-

MKSSS BTINE has arranged **First Aid management workshop** on 6th May, 15th May, 16th May, 31st May, 1st June & 3rd June 2023 for 1st year B.Sc. Nursing (Semester I) Students. It was short course on First Aid Management and was arranged by our HOD Dr. Shubhada Ponkshe, other organizers from GNM & B.Sc. faculty. Students of 3rd yr GNM have participated in skill station topics of First Aid as a part of **IN-SERVICE EDUCATION**.

First aid is the first and immediate assistance given to any person suffering from either a minor or serious illness or injury, with care provided to preserve life, prevent the condition from worsening, or to promote recovery. It includes initial intervention in a serious condition prior to professional medical help being available, such as performing cardiopulmonary resuscitation (CPR) while waiting for an ambulance, as well as the complete treatment of minor conditions, such as applying a bandage to a wound. A First aid is generally performed by someone with basic medical training. Mental health first aid is an extension of the concept of first aid to cover mental health, while psychological first aid is used as early treatment of people who are at risk for developing PTSD.

FIRST AID MANAGEMENT:-

At any moment around you, you could experience an injury or illness. Using basic first aid you may be able to stop a minor mishap from getting worst in the case of a serious medical emergency, you may even save a life.

That's why it's so importance to learn basic first aid skills.

DEFINITION:-

When you provide basic medical care to someone experiencing a sudden injury or illness it is known as first aid.

LIST OF STUDENT ORGANIZERS:-

1. Priyanka Bhapkar
2. Prajakta Bhosale
3. Kajal Chavan
4. Samiksha Ghare
5. Kavita Indore
6. Rutuja hole
7. Ashwini Kadam
8. Nilam Mahadik
9. Mrinal Sanas
10. Priyanka Shingare

Day 1:

Date: 06/05/2023

On 6th May 2023 First aid course started. There are two session

1. Theory
2. Skill station.

In morning theory classes taken by teachers and skill station demonstrate by teachers and then practice taken from students.

Time: 8:00 am to 10:00 am

In this time Introduction of first aid , first aid kit & Wound , Hemorrhage & Shock was taught by Dr. Shubhada Ponkshe (Vice Principal).

Time: 10:00 am to 12:00 pm

In this time period Musculoskeletal Injuries- Fractures, Dislocation, Muscle injuries was taught by Mrs. Deepika Gawali (Clinical Instructor).

Skill Station:

Time: 1:00 to 3:00 pm: In this given time skill station of Wound, Hemorrhage & Shock was held. First aid management demonstration and re-demonstration to students which are divided in group, done by resource person Dr. Shubhada Ponkshe

Time: 3:00 to 5:00 pm: In this given time skill station of Musculoskeletal Injuries- Fractures, Dislocation, and Muscle injuries was held. Demonstration and re-demonstration to students which are divided in group, conducted by resource person Mrs. Deepika Gawali.

Day 2:

Date: 15/05/2023

On 15th May 2023 First aid course started. There are two session

1. Theory

2. Skill station.

In morning theory classes taken by teachers and skill station demonstrate by teachers and then practice taken from students.

Time: 8:00 am to 10:00 am

In this session, Mrs. Deepika Gawali. (Clinical Instructor) taught Transportation of injured persons to the students.

Time: 10:00 am to 12:00 pm

In this session, Respiratory emergencies and Basic CPR was taught by Ms. Aditi Shirke (Clinical Instructor).

Skill Station:

Time: 1:00 to 3:00 pm: In this given time skill station of Transportation of injured persons was held. First aid management of Convulsion was demonstrated and re-demonstrated to students which were divided in group, done by resource person Mrs. Deepika Gawali.

Time: 3:00 to 5:00 pm: In this given time skill station of Respiratory emergencies and Basic CPR was held. First aid management of Basic CPR was demonstrated and re-demonstrated to the students which were divided in groups, done by resource person Ms. Aditi Shirke

Day 3:

Date: 16/05/2023

On 16th May 2023 First aid course started. There are two session

1. Theory

2. Skill station.

In morning theory classes taken by teachers and skill station demonstrate by teachers and then practice taken from students.

Time: 8:00 am to 10:00 am

In this session, Mrs. Avantika Anturkar (Clinical Instructor) taught Foreign Bodies- Skin, Eye, Ear, Nose, Throat & Stomach to the students.

Time: 10:00 am to 12:00 pm

In this session, Bandages was taught by Ms. Aishwarya Akhade (Clinical Instructor).

Skill Station:

Time: 1:00 to 3:00 pm: In this given time skill station of Removal of Foreign Bodies- Skin, Eye, Ear, Nose, Throat & Stomach was held. First aid management of Removal of Foreign Bodies- Skin, Eye, Ear, Nose, Throat & Stomach was demonstrated and re-demonstrated to the students which were divided in groups, done by resource person Mrs. Avantika Anturkar.

Time: 3:00 to 5:00pm: In this given time skill station of Bandages was held. First aid management of Bandages was demonstrated and re-demonstrated to the students which were divided in groups, done by resource person Ms. Aishwarya Akhade.

Day 4:

Date: 31/05/2023

On 31st May 2023 First aid course started. There was only one session held

1. Theory

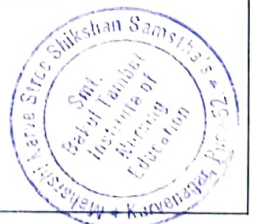

In Evening theory classes taken by teachers and skill station demonstrate by teachers and then practice taken from students on next day.

Time: 1:00 pm to 3:00 pm

In this session, Ms. Dhanashri Patil (Clinical Instructor) taught Unconsciousness to the students.

Time: 3:00 pm to 5:00 pm

In this session, Burn & Scalds, Poisoning was taught by Ms. Ashwini Lande (Clinical Instructor).

Day 5:

Date: 01/06/2023

On 1st May 2023 First aid course started. There was only one session held

1. Skill station.

On Day 4 Afternoon time theory classes were taken by teachers. Skill station demonstrates by teachers and then practice taken from students on Day 5.

Skill Station:

Time: 1:00 to 3:00 pm: In this given time skill station of Unconsciousness (Demo and Re-demo) was held. First aid management of Unconsciousness was demonstrated and re-demonstrated to the students which were divided in groups, done by resource person Ms. Dhanashri Patil (Clinical Instructor).

Time: 3:00 to 5:00 pm: In this given time skill station of Burn & Scalds, Poisoning (Demo and Re-demo) was held. First aid management of Burn & Scalds, Poisoning was demonstrated and re-demonstrated to the students which were divided in groups, done by resource person Ms. Ashwini Lande (Clinical Instructor).

Day 6:
