Maharashtra University of Health Sciences,
Nashik 422 004

Sub.: Final submission of Short-Term Research Grant (STRG) details to MUHS.

Respected Sir/ Madam,

As per your University Research Department Letter No. MUHS/Notification No. 44/2019 (amended 2023). Thank you for sanctioning our research proposal for Short Term Research Grant (STRG) on the topic **“Correlation between the nutrice score, adequacy of energy and protein intake, with the duration of mechanical ventilation in the ICU patients.”**

We are sending the following documents:

1. Progress report of the STRG project.
2. Final report of the STRG project.
3. Certificate from guide/mentor.
4. Income and expenditure statement.
5. Utilization certificate.

Kindly attach a copy of all required details.

Thanking you.

Yours Sincerely,

PRINCIPAL

Date: 25/08/2025

To,
The Registrar
Maharashtra University of Health Sciences,
Nashik 422 004

Respected Sir/ Madam,

I, **Ms. Bhakti Shriniwas Kulkarni**. Designation **passed M.Sc. Nursing student Dept. Nursing** of MKSSS, Smt. Bakul Tambat Institute of Nursing Education, Pune- 411 052, hereby submits my First Progress Report (PR) of the STRG project with the following details:

1. The date of implementation of the project is **July 1, 2025**.
2. Tentative date of completion: **The project has already been completed.**
3. **Title of the project: Correlation Between the NUTRIC Score, Adequacy of Energy, and Protein Intake with the Duration of Mechanical Ventilation in ICU.**
4. PR period: **From September 2023 to February 2024.**
5. Number and Date of previous PR First dated 24 July 2025
6. Details of PR: **Brief resume of the work done, to date, with findings:** The work of research is already done, as it was short-term research for academic fulfillment. The study's results reveal a significant positive correlation between the NUTRIC score and the duration of mechanical ventilation (Pearson's $r = 0.69, p < 0.05$). However, no statistically significant correlations were found between energy intake ($r = -0.05, p > 0.05$) or protein intake ($r = -0.06, p > 0.05$) with the duration of mechanical ventilation. This suggests that = higher NUTRIC scores are associated with longer ventilation durations; energy and protein intake do not significantly influence ventilation time.
7. Work remaining to complete the project, and the work to be done during the remaining period: **Project is completed.**
