**Community Health Nursing
Laboratory Activity report
2024-2025**

Name of Activity: Orientation Program for First Year Nursing Students

Date: 12th August 2024

Time: 10:00 a.m. to 12:00 noon

Venue: Community Health Nursing Laboratory

Faculty Involved:

1. Ms. Smita Lisham
2. Ms. Renuka Nagwanshi

Objective:

To familiarize first-year nursing students with the Community Health Nursing laboratory, its equipment, and the procedures related to community-based nursing practices.

Description of the Activity:

An orientation program for first-year nursing students was successfully conducted on 12th August 2024 at the Community Health Nursing Laboratory. The session was led by Ms. Smita Lisham and Ms. Renuka Nagwanshi, with the active participation of all Community Health Nursing faculty members from Basic B.Sc. Nursing, Post Basic B.Sc. Nursing, GNM, and ANM courses. During the session, students were introduced to the layout and purpose of the Community Health Nursing laboratory. Faculty members provided a detailed explanation of the various laboratory articles, such as community bags, maps, charts, and demonstration materials, which are used for teaching and practicing nursing procedures relevant to community health care.

The orientation also included:

- Explanation of the significance and application of each item in community fieldwork.
- Demonstration of the use of community health kits and charts.
- Instructions on the procedure for issuing and replacing articles for practical use.
- Clarification of students' queries and doubts regarding the laboratory and its usage.

The session was interactive and informative, ensuring students gained a clear understanding of the laboratory's role in their practical education. Faculty encouraged questions and ensured all concerns were addressed.

Outcome:

The orientation enhanced students' understanding of the Community Health Nursing Laboratory and its equipment. It prepared them to effectively participate in future practical sessions and community visits. Students expressed appreciation for the clarity and guidance provided during the session.

Name of Activity: Two-Day Skill Station on Bag Technique & Community Health Nursing

Procedures

Dates: 09th & 10th September 2024**Time:** 9:00 a.m. to 5:00 p.m.**Venue:** Community Health Nursing Laboratory**Faculty Involved:**

1. Ms. Smita Lisham
2. Mrs. Ashwini Bhosale
3. Ms. Renuka Nagwanshi

Participants:

5th Semester B.Sc. Nursing Students,

1st Year GNM Students,

1st Year ANM Students

Procedures Demonstrated:

Date	09:00 am - 12:00 pm	01:00 pm - 05:00 pm
09th September 2024	1. Bag Technique	2. Infant Assessment & Care
	3. Vital Parameter Assessment	4. Toddler Assessment & Care
	5. Blood Sugar Test	6. Pre-Schooler Assessment & Care
	7. Urine Albumin Test	8. School-Aged Child Assessment & Care
10th September 2024	9. Urine Sugar Test	10. Antenatal Assessment & Care
	11. Minor Dressing	12. Postnatal Assessment & Care
	13. Hemoglobin Estimation	14. Geriatric Assessment & Care
	15. Newborn Assessment & Care	16. Nutritional Assessment & Care

Objective:

To provide theoretical knowledge and hands-on training in essential community health nursing procedures to strengthen students' practical skills for clinical and fieldwork settings.

Description of the Activity:

A two-day skill station was conducted on 09th and 10th September 2024 at the Community Health Nursing Laboratory for 5th Semester B.Sc. Nursing, 1st Year GNM, and 1st Year ANM students. The session was organized and facilitated by Ms. Smita Lisham and Mrs. Ashwini Bhosale, Ms. Renuka Nagwanshi

The training began with a theoretical orientation for each procedure, where faculty explained the definition, purpose, indications, and significance. This was followed by a step-by-step demonstration of: Articles required, Procedure steps, Infection control measures, Aftercare procedures.

The session covered a comprehensive range of nursing procedures applicable across the lifespan, from newborn care to geriatric care, as well as maternal and nutritional assessments.

After the faculty-led demonstrations, each student was given the opportunity to practice the procedures under faculty supervision. Individual guidance and feedback were provided throughout the practice sessions to ensure proper technique and understanding.

Outcome:

- Students demonstrated active participation and enthusiasm in practicing all the procedures.
- The session enhanced their clinical competence and confidence, especially in handling community health kits and conducting assessments across different age groups.
- Faculty noted improvement in procedural techniques, aseptic practices, and professional communication during the hands-on sessions.

Conclusion:

The two-day skill station successfully achieved its objectives by bridging the gap between theoretical knowledge and practical application. Students were able to gain valuable experience that will aid them in their clinical postings and community health fieldwork.

Name of Activity: Re-demonstration of all Community Health Nursing Procedures

Date: 6th January 2025 to 10th January 2025

Time: 9:00 AM to 5:00 PM

Venue: Community Health Nursing Laboratory

Faculty In-charge:

1. Ms. Smita Lisham
2. Mrs. Ashwini Bhosale

Activity Summary:

From 6th January to 10th January 2025, students of 5th Semester B.Sc. Nursing and 2nd Year Post Basic B.Sc. Nursing actively participated in the scheduled re-demonstration sessions held in the Community Health Nursing Laboratory. During this period, students had the opportunity to revisit and practice a wide range of Community Health Nursing procedures under the supervision and guidance of faculty members.

The sessions focused on reinforcing the fundamental concepts and techniques learned in previous semesters, as well as on providing hands-on practice of essential procedures. Students demonstrated a high level of interest and enthusiasm, and all procedures were carried out following proper scientific principles.

Faculty members Ms. Smita Lisham and Mrs. Ashwini Bhosale were present throughout the sessions to oversee the practice, provide guidance, and ensure correct technique and safety protocols were followed. They also addressed students' queries and cleared doubts on the spot, enhancing the overall learning experience.

In addition to current semester skills, students also revised procedures from previous academic years, which helped in refreshing their knowledge and improving confidence.

Outcome:

- Students practiced essential Community Health Nursing procedures effectively.
- Previous year skills were revised for better understanding and continuity.
- Faculty ensured adherence to scientific principles and corrected techniques as needed.
- Student queries were resolved immediately, leading to enhanced satisfaction and clarity.
- The re-demonstration session proved to be productive and beneficial in strengthening clinical skills.

Conclusion:

The re-demonstration sessions conducted from 6th to 10th January 2025 were successful in achieving their objectives. The active participation and interest shown by the students, coupled with the guidance provided by the faculty, contributed to the effective reinforcement of clinical skills in Community Health Nursing.

Name of Activity: Re-demonstration of all Community Health Nursing Procedures (Pre-Final Exam Preparation)

Date: 21st April 2025 to 25th April 2025

Time: 1:00 PM to 4:00 PM

Venue: Community Health Nursing Laboratory

Faculty In-charge:

1. Ms. Smita Lisham
2. Mrs. Ashwini Bhosale

Summary:

From 21st to 25th April 2025, students of 5th Semester B.Sc. Nursing and 2nd Year PB B.Sc. Nursing attended re-demonstration sessions in the Community Health Nursing Lab as part of pre-final exam preparation. Students revised and practiced key nursing procedures from the current and previous academic years.

All procedures were performed using correct scientific principles under the supervision of faculty. Teachers guided the students, corrected techniques, and clarified doubts on the spot. Students showed good participation and interest.

Outcome:

- Improved practical skills and confidence
- Better understanding through revision and guidance
- Clarified doubts and corrected techniques

Conclusion:

The activity helped students prepare effectively for their pre-final practical exams and strengthened their clinical competence.

Nutrition Laboratory

Activity Report

2024-2025

2024-2025

Date: 12/08/2024

Time: 09:00 am to 12:00 pm

Venue: Nutrition laboratory

Name of faculty: 1) Mrs. Shital Chirke
2) Ms. Himani Khandale

Activity: Orientation of Nutrition laboratory

On 12th August 2024, orientation of nutrition laboratory was planned for first year Basic B.Sc. nursing students. The orientation had started from 09:00 a.m. in which all the articles and SOP of the lab were explained.

Students were also explained about the important of therapeutic diet according to patient's disease condition (e.g. renal diet, balanced diet, diabetic diet, hypertensive diet, weaning diet etc.) and socioeconomic status.

Describe students about the relationship between nutrition and health and also the classification, functions, sources and recommended daily allowance of all nutrients (CHO, Protein, fats, Vitamins, Minerals, etc.).

All doubts of students were cleared by faculty and general instructions were given. Also, information given regarding issuing and replacing.

PRINCIPAL
MKSSS's Smt. Bakul Tambat
Institute of Nursing Education
Karvenagar, Pune-411052.

Date: 22/05/2025 and 23/05/2025

Time: 9 am to 1 pm

Venue: Nutritional Lab

Mode: Offline

First-year BSc nursing department, along with the students, planned and organized nutritional recipes on therapeutic diet on 22-05-2025 and 23-05-2025. Students had prepared an outline based on the scenarios provided, which included various disease conditions. Various therapeutic diets were prepared in which the dietary calculations were made, and AV aids were also prepared, which included all the dietary information, indications, and contraindications related to the specific diet given to a particular patient.

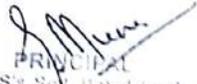

The students prepared all the dishes under the guidance of the teachers. The total number of students who participated was 48. Groups were divided, and each group had a team leader who ensured that all team members worked efficiently.

The diets that were given were as follows:

1. Renal diet
2. DASH diet
3. Protein-energy malnutrition (PEM) diet
4. Ulcerative colitis diet
5. Clear liquid diet
6. Diabetic diet
7. Antenatal diet

Each group presented the scenario that was given to them and explained the dish that had been prepared. Questions were asked by teachers to each group related to the caloric intake, and the daily requirements based on the patient's diet that was prepared. Both teaching and non-teaching staff were invited by the students to come and be part of the day celebrated.

Date: 16/10/2024

Time: 9:00 am to 5:00 pm

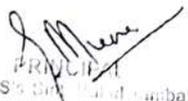

Venue: Anatomy laboratory

Name of faculty: Mrs. Aditi Shirke

Name of Procedure: Practice on models and charts

Activity: From 16/10/2024, students of first year Basic B.Sc. Nursing used anatomy laboratory to learn anatomy and physiology of various organs, specimens and charts for the practice. Faculty has taken group wise practice of the students. There are various educational methods used in anatomy teaching. While three-dimensional visualization technologies are gaining ground due to their ever-increasing realism, reports investigating physical models as a traditional method are still the subject of considerable interest. They asked about the parts and functions of the organs while practicing the students. Faculty supervised and guided the students to take initiative and explain the models and charts using appropriate steps. Students start to explain models and charts individually.
