MSc Nursing	459
PBBS	2153
Student	33060
	37382

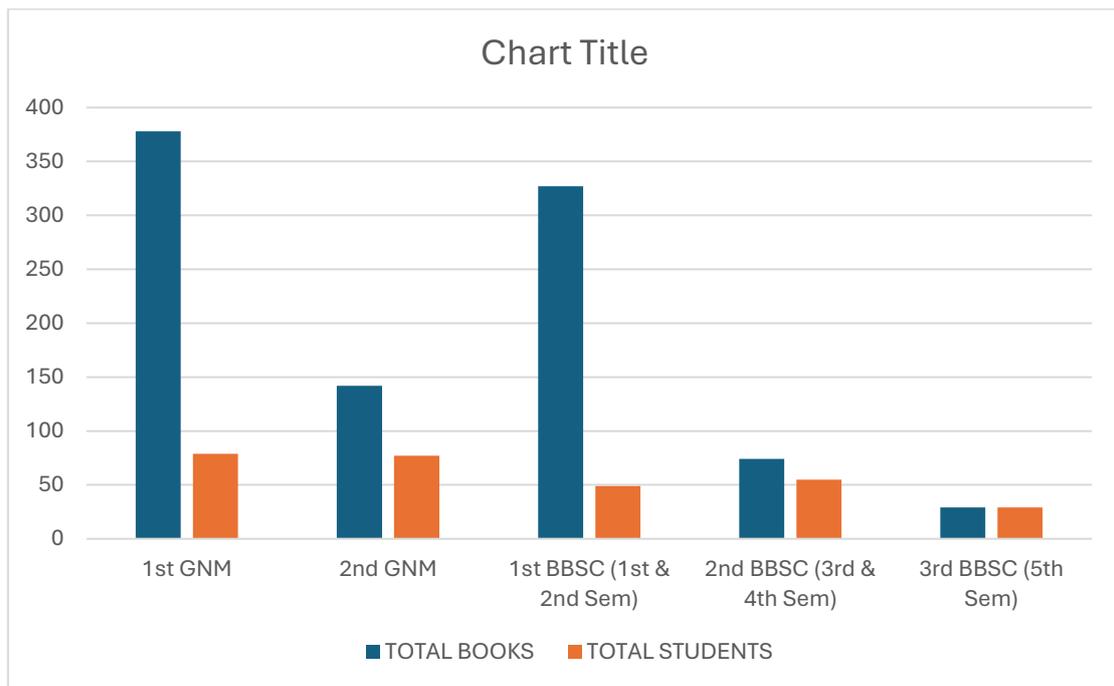

3. Monthly transaction report from library software 2024-2025

Month	TOTAL
June	4852
July	4894
August	2226
September	3255
October	3812
November	2790
December	4726
January	4793
February	2419
March	197
April	582
May	2836
Total	37382

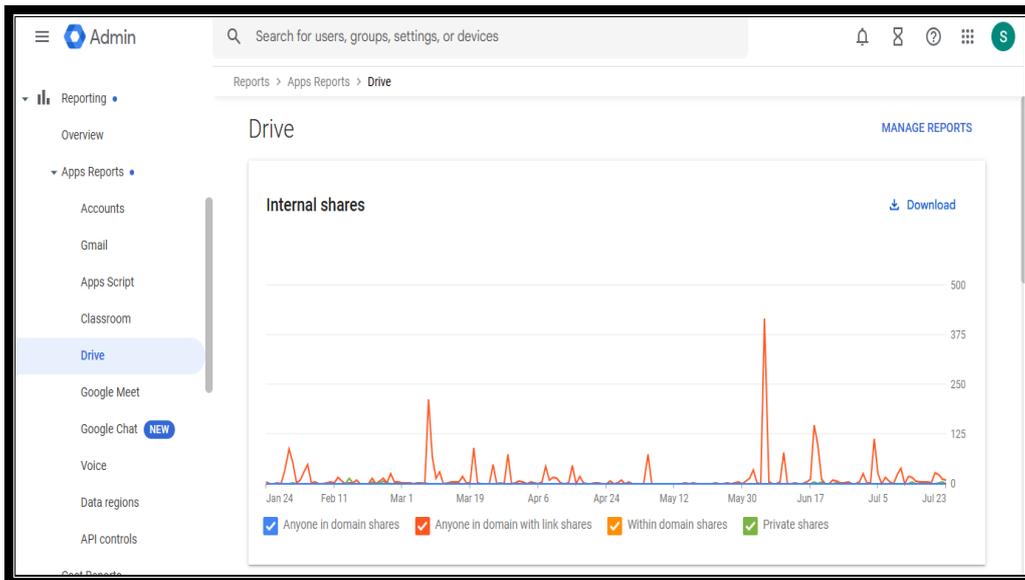

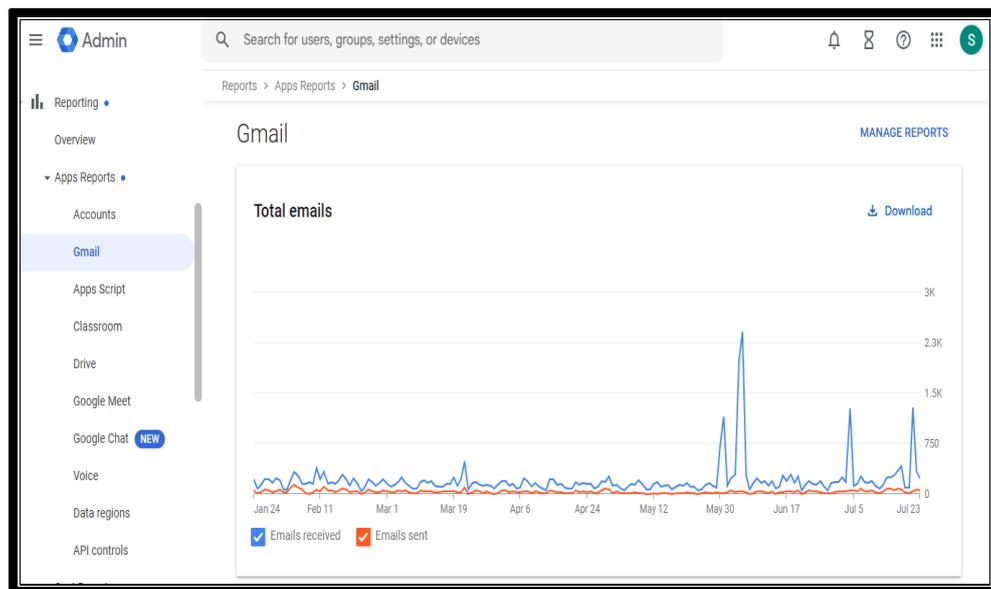

3. Distribution of Book Bank (2024-25)

SR. NO.	CLASS	TOTAL BOOKS	TOTAL STUDENTS
1	1 st GNM	378	79
2	2 nd GNM	142	77
3	1 st BBSC (1 st & 2 nd Sem)	327	49
4	2 nd BBSC (3 rd & 4 th Sem)	74	55
5	3 rd BBSC (5 th Sem)	29	29

The screenshot shows the Google Admin console interface. The left sidebar contains navigation options: Admin, Data, Reporting, Billing (Subscriptions, Payment accounts, Buy or upgrade), License settings (highlighted), Account, Rules, Storage, and Send feedback. The main content area is titled 'License settings' and shows settings for users in 'Smt Bakul Tambat Institute of Nursing Education'. It includes a search bar for organizational units, a list of units (Heads, Non-Teaching Staff, Official emails, PHD Scholar, Students, Teaching Staff), and a section for 'Google Workspace' with an 'ASSIGN LICENSES' button. A note states: 'Automatic licensing setting determines whether or not currently unsubscribed users and subsequently added users are automatically assigned a subscription license. By default, organizational units inherit license settings of the parent. Learn more'. Below this, it shows 'Google Workspace' settings: 'Automatic licensing' and 'Auto assign Google Workspace for Education Fundamentals'.

4.3.5 In-person and remote access usage

Smt Bakul Tambat Institute of Nursing Education library possesses various print and electronic resources. Our users access resources by visiting the library in person and remotely through mobile devices and laptops.

Library is open between 9 am to 6 pm for in-person access. We provide open access and students can visit library at their convenient time. Library maintains usage records both physically and electronically. We maintain a student and teachers and guests' attendance register at the entry. We also maintain usage records of the internet, book borrowing and other resources in a separate register. A separate register for reference queries is also maintained. Library hours are planned by faculty as per their academic schedule.

We have implemented remote access with OPAC available on the local area network since 2016. Every year a nursing database is subscribed which can be accessed with the help of a User ID and password.

We organize class-wise library orientation in which a library demonstration of accessing e-resources is shown.

Last academic year 2024-25, we have subscribed Delnet and EBSCO database and oriented students about its functioning through mailing a detailed document including the User ID and password and a list of journals.

Other than this, we conduct book exhibitions cum sale of nursing books on a regular basis, new arrival displays and health day theme displays. Newspaper clippings are displayed on the notice board to keep students updated.

Best library user award is given to 2 students from each class every year to encourage them to utilise library effectively.
